DESCRIPTION

Extensible platforms to reach pick up points of the more demanding vehicles. The best solution for a rational workshop.

- Space-saving when lift is all raised
- Completely free floor space when lift is fully lowered

- All pivot points made with self lubricating bushings for long life
- Every time the platforms reach the floor, the lift is perfectly levelled thanks to a patented valve
- Mechanical locking device with automatic engagement and pneumatic release, ensuring maximum safety when lift is in standing position
